

TESTIMONIALS

I used *Your Résumé Services* and was hired within two weeks of receiving my new and updated résumé. It was very easy to work with Dan. We were able to communicate by phone, email and text to create the finished product. The whole process was very personal and thorough. We were also able to make changes in order to tailor the résumé to different positions. I would definitely recommend this service!

Debby, Educator

As I looked for a résumé writing service, I was overwhelmed with the sales pitches and choices and was glad to find Dan at *Your Résumé Services*. Using Dan made my choice very easy. He was a pleasure to work with, listened to my needs, and took a very practical approach in delivering my résumé and cover letter for a reasonable fee. I also received very good advice on job hunting strategies.

Ken, COO/VP Franchising

The service was excellent and prompt. I was kept informed at all times and was asked for my input throughout the entire process. Dan showed me how to tailor my résumé for different jobs. I was very pleased with the finished results.

Ann, Corporate Travel Consultant

The first step—often the hardest—to finding a new job is the résumé, however that was not the case for me thanks to Dan. From our first conversation he was easy to talk to and really understood what I was looking for. His plan was simple; we would talk for two hours and he would come up with a first draft from which I could give him pointers on what direction I was going and the area I wanted to focus on. Well it turned out that Dan understood me better than I thought and the first draft—except for a few factual changes and tweaking—succinctly told my work history and conveyed my talents in a unique way and as a hiring manager myself, I have seen a lot of boring résumés. I strongly recommend Dan for not only a great résumé but a very positive experience.

Y.B., Field Operations Manager

I'd like to say that I'm very grateful for Dan's hard work. Not only did he give my resume a completely new look, but he literally transformed my 10-year gap in employment into meaningful experiences related to my field. I never imagined that my full-time parenting years could be portrayed as relevantly as he did. When I read his version of my resume, I saw a completely different person from the one before. What a difference! I am truly amazed and I hope I can live up to my new image!

Fumika K., Health Care Professional

You exceeded my expectations by a long shot and I will recommend you to anyone seeking resume services. I appreciate the attention to detail and your devotion to customer satisfaction.

John G., Surveying Technical Manager

It was such a pleasure working with you, thank you so much. I have already gotten call backs, and have been on two interviews. I am very happy with my resume and cover letter.
